“Prahāda Mahārāja recommended that his father accept vānaprastha life because as a grhastha he was becoming increasingly demoniac due to bodily attachment. Prahāda recommended to his father that accepting vānaprastha life would be better than going deeper and deeper into grhamandha-kūpam, the blind well of life as a gṛhastha. In our Kṛṣṇa consciousness movement.

**We therefore invite all the elderly persons of the world to come to Vrndāvana and stay there in retired life, making advancement in spiritual consciousness, Kṛṣṇa consciousness.”**
