Devotional atmosphere permeates all over throughout the day in the form of melodious kirtans which touch the heart. There was a drama named "Chandkazi" performed by the middle-grade students and also Kahoot quiz competition was held on the topic of Mahaprabhu.

PLANTED A JACKFRUIT TREE ON 125TH BIRTHDAY

The Jackfruit Tree! Coming from the birthplace of Srila Prabhupāda, this jackfruit plant is an expansion of the same tree under which 125 years ago, His Divine Grace A.C. Bhaktivedanta Swami Prabhupada, had appeared. In accordance with Bengali tradition, the mother had gone to the home of her parents for the delivery, and so it was that on the bank of the Adi Ganga, a few miles from his father's home, in a small two-room, mud-walled house with a tiled roof, underneath a jackfruit tree, Abhay Charan was born.

VISIT OF HH GOPAL KRISHNA GOSWAMI MAHARAJ

H.H. Gopal Krishna Goswami Maharaj is a senior disciple of Srila Prabhupada and very senior spiritual leader and GBC of ISKCON.

He was gracefully received with a kirtan by the students and teachers. Gurukula boys prepared garlands and offered them to Maharaj. During his meeting with all devotees, Maharaj encouraged and inspired them to continue serving Krishna with full dedication. He motivated students to keep a balance between spiritual education and material education to be proficient with exemplary character as desired by Srila Prabhupad. He spoke to the teachers to maintain the ideal behaviour and inculcate Vaishnava culture among the students. Maharaj's mercy was showered in all corners of the BGIS campus. Maharaj dropped in for a brief visit to Gaushala and Aghasur statue. He interacted with all the devotees and blessed them with his sweet words.

EDUCATION AND THE GOOD LIFE

"If we want perfect education then we must follow the principle of Bhagavad Gita. Such education will help the whole human society. In all different fields of activity, social, political, religious, cultural, economic and so on"

Srila Prabhupada
Letter 1st May 1974 (Bombay)

Srila Prabhupada stressed that character development is an inseparable part of education. He explained that the teachers themselves should be exemplary role models to successfully impart Vedic knowledge to the students. Setting a good example for the boys is the best precept. There is a saying that an example is better than a precept. Our exemplary character depends on strictly following the four principles, and this will conquer the whole world.

Simply by following our regular routine, the children can associate as much as possible with the Krishna Conscious program. They can learn our method of Krishna Consciousness by rising early, by following the spiritual activities, gaining knowledge of Sanskrit along with their academic studies of different subject like English, Mathematics, science, history, geography etc.

We had Distinguished guests amidst us - Hema Malini Ji who doesn't need any identification. She is an eminent actress, director, producer, and also politician. We were overwhelmed as she has rendered her valuable time and words of inspiration for us. Hema Malini Ji has mentioned some instances which were spoken by Lord Krishna to Arjuna on the battlefield when Arjuna was bewildered with his mind and thoughts.

She was very delighted with this initiative of starting "Gitanushilanam". She has encouraged people to read the Bhagavad Gita with more focus, attention, and seriousness as Gita is the cream of all Vedic shastras also a solution to all material problems. We are highly privileged to have such a dear devotee of Lord Krishna as the MP of Mathura, Vrindavan.

FTC TEAM #4030 BGIS FROM BHAKTIVEDANTA GURUKULA & INTERNATIONAL SCHOOL

The Student Team from Bhaktivedanta Gurukula & International School participated in the First Tech Challenge National Robotics Championship held in Pune from 11-13 March 2022. FIRST® Tech Challenge is the world's largest student-centered Robotics program that focuses on giving students a unique learning experience. Each year, teams engage in a new game where they design, build, test, and program autonomous and driver-operated robots that must perform a series of tasks. Teams also need to raise funds, design and market their team brand, do community outreach and innovate to solve real-world challenges.

Participating in First Tech Challenge gave students an opportunity to learn from different Teams across India. Students developed 21st-century skills through various aspects of the Championship, learned teamwork and collaboration with other teams, enhanced their presentation and communication skills through Judges interviews, worked on critical thinking skills for the Robotics Matches, and did community outreaches to share their learnings with the children in various villages. With the lifelong learning experience, students are inspired to become problem solvers and change-makers.

First Tech Challenge is organized by FIRST® (For Inspiration and Recognition of Science and Technology), an international organisation and a global robotics community. FIRST® inspires young people to be science and technology leaders and innovators by engaging them in exciting mentor-based programs that build science, engineering, and technology skills, inspire innovation, and that foster well-rounded life capabilities including teamwork, self-confidence, communication, and leadership.

From engineering and coding to design-thinking and community outreach & solving challenges with Science, Technology, Engineering, Art, and Maths (STEAM), FTC Team BGIS had hands-on experiences that inspired them to become problem solvers and changemakers. MESSAGE FROM THE PRINCIPAL

The last two years have been a difficult time for everybody worldwide. This unprecedented outbreak of a pandemic worst hit the education system of every country. Bhaktivedanta Gurukula and International school is one of the leaders who started their online classes and tried to normalise things and positively engage the students throughout this period.

Now, all the students are back to the campus, the home that they have been missing for so long. An environment where they can play with their friends, fly in the fresh greenery around and learn with their favourite teachers. The school can again hear those chirping littles in their primary classes. Laboratories have again started with the students having their hands-on experiments. The Enthusiasm and Energy have returned to the campus.

Very soon, the annual examinations are starting for which all the teachers are working rigorously with the students. The students must be conceptually clear and their revision work accomplished. We hope they will perform nicely like their seniors and bring pride to their parents and teachers. May Krishna shower his mercy to everybody.

NITYANANDA TRAYODASHI

THIS AUSPICIOUS OCCASION OF NITYANANDA TRAYODASHI,

The BGIS celebrated the most auspicious appearance day of Lord Nityananda, also known as Nityananda Trayodashi. Lord Nityananda is an eternal associate of Lord Chaitanya Mahaprabhu. Lord Nityananda is the most magnanimous expansion of Lord Sri Krishna, and who is none different from Lord Balaram. Lord Nityananda is the adi guru, the first guru, and He is worshiped as the most merciful incarnation of Godhead.

The celebration began with the invocation (Mangala-charan prayers) headed by BGIS Kirtan group, followed by the recitation of Sri Nityanandastakam and bhajans from Middle Schools.

The Gurukula boys offered a wonderful song for the pleasure of Lord Nityananda, they sang the "Akrodha Paramananda Nityananda Raya". In this song Srila Locana Das Thakur writes, "The noble Lord Nityananda is never angry, for He is the personification of supreme transcendental bliss.

Devoid of any concept of false ego, Nitai wanders about the town. Going from door to door in the residences of the most fallen and wretched souls, He freely distributes the gift of the Hari-nama mahamantra.

"The program continued with a drama offering from Primary Schools. They performed the most famous pastime of Lord Nityananda, "The Deliverance of Jagai and Madhai".

This drama showed us the magnanimous nature of Nityananda Mahajan. He appeared on Earth primarily to deliver the most fallen souls by inducing them to chant the holy name of Krishna. The Lord is known for being merciful, benevolent and kind towards all living entities. He does not discriminate between pious, impious, black or white, rich or poor, male or female, animal or human.

No matter who we are, what we did in the past, The Lord freely gives the Holy Name. The BGIS staffs graced the stage by a beautiful rendition of a vaisnava song glorifying Lord Nityananda and Lord Gauranga

HG MUKUNDA DATTA PRABHU

Prabhu has enlightened us with the divine appearance of Advaita Acharya prabhu, how he frequently prayed for Krishna to descend and save the society which was degrading day by day. Sri Advaita worshiped Krishna on the banks of the Ganges with Ganges water and Tulasi leaves, crying out and begging for the Lord to come save the suffering souls. In response to Sri Advaita Acharya's devotion and compassion, Krishna decided to appear, in the form of His own devotee—Chaitanya Mahaprabhu.

HG KRISHNANANDA PRABHU

On the divine appearance day of Lord Nityananda prabhu we had an association of HG Krishnananda Prabhu, who has beautifully explained who is Nityananda Prabhu and narrated his pastimes. Lord Nityananda Prabhu who appeared as Lord Caitanya's principal associate

for spreading the congregational chanting of the holy names of the Lord. He especially spread the holy name of the Lord throughout Bengal. He is considered an incarnation of Lord Balarama.

HG Krishnananda Prabhu said once while Nityananda played the part of Lakshman and remained unconscious as long as the child who was playing the part of Hanuman did not bring the medicine as had happened during the original pastime during Lord Rama's time. People then realised the real identity of Lord Nityananda Prabhu and started glorifying him.

BGIS STUDENTS IN COW SERVICE

BGIS Students participate enthusiastically in services of Goshala as it is in our culture that from the beginning of civilization, the human race has been attaining prosperity, happiness, health, prestige and auspiciousness by serving Gaumata. BGIS Students serve in Goshala wholeheartedly according to their turns. It is said that those who serve Gaumata with complete devotion, the Gaumata gives him a special boon. If someone serves Gaumata by serving her fodder, giving her water to drink, caring her with love and looking after the injured ones, then one gets whatever he wishes including an offspring, money, knowledge, happiness. Students serve them with fodders and also play with calves and on Sunday during Campus Sankirtana students perform kirtana in Goshala amidst the Holy Cow.

'Gau' means 'cow' and 'Mata' means 'Mother'. In the Hindu scriptures the cow is mentioned as Devi and Mother Earth, the ever-giving nourisher, providing for all and sustaining the lifetime of all creatures. Our Shastras as well as Science are in a sturdy favor of cow milk and its products, Cow Urine(Gomutra) and Cow Manure.

Gau Seva is Govind Seva. Gau Mata is Vishwa mata - the universal mother. In reality, a cow is considered more sacred than a human being for she is an embodiment of divine love.

In Hinduism we consider cow as the mother of mankind. It is home for all the 33 crore demigods of Hindus. It is believed to get the blessings of all the 33 crore demigods altogether by serving gaumata. That's why BGIS is giving this opportunity to their students to spiritually enhance themselves by serving cows.

STUDENT'S VILLAGE PREACHING

BGIS Students are participating in social awareness programmes related to Spiritual awareness especially in nearby villages with the same enthusiasm as they are having in their other activities.

Students begin preaching with the help of an interpreter from the local people and later train up some intelligent men who speak English. When they are conversant with our philosophy, they can also preach to the general public.

We found the villagers to be very receptive, interested about Krishna Consciousness. Students does book distribution also teach them the way of chanting Mahamantra. They try to answer spiritual queries of the people. They also conduct Nagar Sankirtan in the nearby villages.

BGIS FTC TEAM MAKE COMMUNITY OUTREACH PROGRAM

"Bhaiya Aap kal fir se aana", said children in the villages to BGIS students. Through community outreach students shared their learnings with the children in Nagla Vilage, Ral Village, Jait Village and Ajhai village. It was the first time ever they touched a laptop, their eyes were shining when they saw the robot. They asked various questions like how does it work, students explained them about robots, motors, sensors, the science and maths behind it. Children also discussed how the robots can be used for various purposes in villages for helping in Farming and education. Parents were really happy to see children's excitement towards learning. Children also got opportunity to build and program the robot.

FTC Team BGIS will continue to do outreaches and plans to make FTC Team from the nearby villages so that these students can get the same learning experience that they had.

Team BGIS also interacted with youth in the villages to understand the challenges they are facing and discussed on how together we can solve them.
